|	INTEGRATED MANAGEMENT SYSTEM POLICY	Document No : PO.01
MİTAŞ COMPOSITES		First Issue Date : 20.03.2018
		Rev. No : 02
		Rev. Date : 23.07.2024

MİTAŞ Composites, with all its employees and resources, adopts and tries to implement the issues of quality, environment and occupational health and safety in the best way in order to be one of the leading companies in its field.

For this purpose, all activities are carried out in a sustainable way, in line with its goals and objectives, in accordance with its integrated management covering quality, environment and occupational health and safety, created with the participation of all assets and employees.

In this context, Mitaş Composites commits;

- ✓ To implement and continuously improve an integrated management system covering quality, environmental and occupational health and safety in accordance with all legal regulations, customer requirements and other relevant provisions with efficient risk management,
- ✓ To approach and support any innovative methods for increasing process performance by setting targets,
- ✓ To identify, evaluate, monitor and take necessary actions when necessary, within the scope of risk management approach, of risks and opportunities that may affect the achievement of company goals, according to their impact and probability,
- ✓ To meet the customer's expectations at the most competent level by identifying them as a priority criterion in all processes within the framework of customer focus,
- ✓ To reduce waste, increase recycling rate and reduce the use of natural resources by focusing on energy use, environmental balance and protection of natural resources,
- ✓ To eliminate all the factors that may cause accident, loss, occupational disease caused by activities and near miss by analyzing the existing hazards well,
- ✓ To improve the skills and competencies of employees and business partners on quality, environmental and occupational health and safety issues to ensure their participation and consultancy.
